SPECIFICATIONS
Generating Element: Dynamic
Frequency Response: 50 to 18,000 Hz
Polar Pattern: Omnidirectional
Impedance: Lo-Z, 150 ohms, balanced
Output Level: -68 dB
(0 dB = 1 mW/10 dynes/cm²)
Pop Filter: Built-in Acoustifoam™
Grille Screen Material: Memraflex (tempered spring steel)
Case Material: Steel
Finish: Non-reflecting gray
Dimensions: 28.45 mm (1.12\{\prime\}) widest diameter,
19 mm (.75\{\prime\}) shank,
146 mm (5.75\{\prime\}) long
Net Weight: 184.27 g (6.5 ounces)
Accessories Included:
310 stand clamp
Zippeder vinyl carrying case
Optional Accessories:
312 clamp
355A windscreens
380 attenuator
541 cable
542 cable
543 cable
544 cable

DESCRIPTION AND APPLICATIONS
The Electro-Voice Model PL9 dynamic omnidirectional microphone is EV's ultimate instrument recording mike. It's exceptionally wide, flat frequency response extends from 50 Hz all the way out to 18,000 Hz for really faithful reproduction of any instrument. Simply put the PL9 inside a set of drums, or outside an orchestra—and capture it all.
Feedback in live entertainment situations is caused by sound being reflected off walls, speaker systems, amps, mixers, etc., back into the microphone. Microphones and speaker systems that exhibit peaked frequency response curves tend to trigger a feedback situation. Feedback problems can be minimized by using only microphone and speaker systems that exhibit an overall smooth, peak-free frequency response. The Pro-Line family of Electro-Voice microphones have an overall smoothness of frequency response that helps significantly to control feedback problems.
Feedback problems can be further minimized by using close miking techniques on all microphones used whether they be instrument microphones or vocal microphones. Close miking techniques help reduce feedback because the microphone's signal to the amplifier is at a maximum in this condition and the amplifier's gain setting can be reduced appreciably. This yields a significant reduction of back-ground and reflected sound to the microphone as compared to the entertainer's voice giving more system sound output before feedback.

WARRANTY (Limited) - Electro-Voice Pro-Line Microphones (excluding Model PL88) are guaranteed unconditionally against malfunction for one year from date of original purchase. Also, these microphones are guaranteed without time limit against malfunction in the acoustic system due to defects in workmanship and materials. If such malfunction occurs within warranty period the microphone will be repaired or replaced at our option. Without charge for labor or materials if delivered prepaid to the proper Electro-Voice service facility. Unit will be returned prepaid. (Any active electronics incorporated in a microphone are guaranteed for three years from date of original purchase against such malfunction.) Warranty does not cover finish, appearance items, cable, cable connectors, or switches. Defects occurring due to abuse or operation at other than specified conditions, Repair by other than Electro-Voice or its authorized service agencies will void this guarantee. The PL88 is guaranteed for two years from date of original purchase against defects in workmanship and materials.
For repair information and service locations, please write: Service Dept., Electro-Voice, Inc., 600 Cecil Street, Buchanan, Michigan 49107
(Phone: 616/695-8831) or Electro-Voice West, 8234 Doe Avenue, P.O. Box 3297, Visalia, CA 93277 (Phone: 209/851-7777).
Electro-Voice also maintains complete facilities for non-warranty service of EV products.
