

**Omni-directional dynamic microphone for outdoor use in all weather conditions.**

The new Sony F-115 is an all-weather dynamic microphone with built-in waterproof screen that keeps rain, condensation, and dust out, but lets all the sound come through. For conditions of severe rain, snow, sleet, or heavy dust, the F-115 also comes with a doubly-structured accessory wind screen. Special packing material inside the F-115 microphone capsule assures unfouled connections. And to keep microphone touch noise to a minimum, the F-115 has a vibration-proof rubber mounting.

**Special features of the all-weather F-115:**

**Built-in Waterproof Screen.**

**Double-Structured Accessory Wind Screen.**

**Anti-fouling Packing Material.**

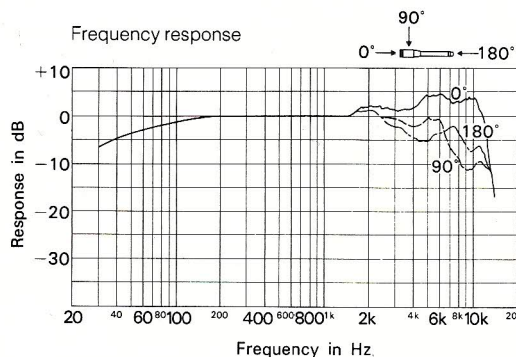

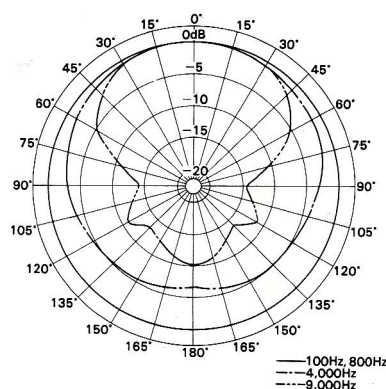

**Vibration-proof Rubber Mounting.**

**Balanced Output with XLR Type Plug.**

F-115 with accessory wind screen for severe weather conditions
